

WHO WE ARE?

At GCAP VN, we believe that seaweed — rich in natural nutrients — holds long-lasting value for both health and daily life. From the pristine coastal waters of Central Vietnam, we choose to grow and produce our products with integrity: responsible farming, careful processing, and a steadfast commitment to quality.

Every product we make is shaped by thoughtful sourcing, hands-on experience, and a spirit of continuous improvement.

Our journey begins by the sea and reaches out to the world, bringing the finest of Vietnam's seaweed to those who care about wellness, love nature, and seek true value in the food they choose.

I. SEA GRAPES

FRESH, CRUNCHY, HEALTHY – A TRUE GIFT FROM VIETNAM'S SEA

Sea grapes (*Caulerpa lentillifera*), also known as “green caviar” are a type of edible seaweed, with their grape-like appearance and natural crunch, sea grapes offer a unique ocean-fresh taste and are enjoyed across Asia for both their flavor and health benefits.

✓ No additives, No preservatives

✓ Crunchy, Delicious, Nutritious

✓ Rich in vitamins, dietary fiber, and essential minerals, especially high in polysaccharides

2. SEA GRAPES POWDER

NEW FUNCTIONAL SUPERFOOD FOR DAILY HEALTH

A breakthrough product made by extracting sea grapes essence and blending with inulin – a natural prebiotic. Spray-dried to preserve nutrients and taste.

Benefits
