## ABOUT US

### GLOBAL EXPORT AND IMPORT FOODSTUFF JOINT STOCK COMPANY

**GLOBAL FOOD JSC** is originated from Luc Ngan State – owned farm, founded in 1963. In the history of more than 60 years, we're a leading in the field of manufacturing and supplying high-quality frozen, dried, canned, puréed, and concentrated vegetables and fruits. With a commitment to bringing the safest, cleanest, and freshest products to consumers, we are constantly improving our production process and enhancing service quality.

#### Our advantages:

- Clean raw materials from safe vegetable and fruit growing areas
- Modern production technology, meeting international standards
- Experienced staffs

#### We are committed to:

- Ensuring the best product quality
- On-time delivery
- Professional customer service

#### Our history:

The predecessor was a state-owned farm. After equitization, our company has transformed strongly, investing in more modern production lines, aiming at the goal of safe quality products. We are always confident in bringing customers the highest satisfaction.

- Quality certifications: BRC, FDA, ISO, HACCP, SA8000....
- Main products: Edamame, mukiedamame, lychee, longan, mango, banana, cucumber, sweet corn, sticky corn.

### OUR MODERN PROCESSING LINES

Fresh Fruit and Vegetable Processing Line - IQF Freezing Line  
Canned Fruit Production Line - Fruit Puree UHT

# OUR STORY

## RAW MATERIAL AREAS

## COMBINED WITH FARMERS

Promote sustainable development of the agricultural sector, ensure benefits for farmers, businesses, the state,

### Government

The Government supports policies, laws and techniques to help farmers and factories improve production and processing capacity.

### Farmers

In the raw material areas, farmers directly cultivate and care for crops under the guidance of Global Food agricultural engineers. Farmers apply advanced cultivation techniques, use high-quality plant varieties and comply with safe production processes.

### R&D Department

The R&D Department at the company conducts research and provides knowledge, technology, and new plant varieties, helping to improve production efficiency and product quality. Simultaneously, they check and evaluate product quality before bringing it to market.

### Company

Global Food Company's factory is equipped with modern technology to process, package and preserve products to ensure the nutritional value and freshness of the products are preserved. The processing process at the factory also complies with strict food hygiene
