# Founder's Message

**I began this journey with merely a dream.** A dream to build not just a company, but a collective driven by three fundamental values.

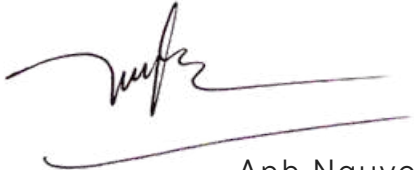

**Firstly, a commitment to our team:** to cultivate a transparent environment where hard work is truly recognized and rewarded. A workplace where policies are consistently upheld, eliminating uncertainty and fostering peace of mind. A space where every voice matters, where mistakes are seen as opportunities for growth rather than grounds for criticism. We aspire to empower our people, to trust their capabilities, to prioritize their personal development and mental well-being – an ongoing journey, but one I've been passionately pursuing since day one.

**Secondly, a dedication to our customers and partners:** while the foundation of any business lies in mutual benefit, our aim is to achieve a true win-win for all. We strive to balance interests, ensuring that every relationship is built on fairness and protection. We listen intently, empathize with challenges, and extend our support to the best of our ability, fostering progress for everyone, at their own pace, grounded in understanding and compassion.

**Thirdly, a responsibility to our community:** no individual or entity can thrive in isolation. We firmly believe it is our collective duty to contribute to the well-being of those less fortunate, to support children's education, and to aspire towards building meaningful infrastructure for the community in the long run. I am proud that, starting in 2025, we have already taken our first steps in this direction.

I am incredibly fortunate to have found dedicated individuals who share this vision. Witnessing Silvera Food grow stronger, more resilient, and more loved with each passing month and year has been a deeply rewarding experience. My greatest aspiration is to continue this journey alongside the entire Silvera Food team, writing meaningful chapters together in the years to come.

**Thank you for being a part of our story.**

# 01- ABOUT US

Who are we?

Since our establishment in 2019, Silvera Food has operated as both an **exporter** and a dedicated **sourcing agent** specializing in seafood products, with a strong emphasis on frozen seafood, canned goods, and dried fish. We have achieved this by leveraging a broad network of approximately 200 local producers, many of whom hold international certifications. Through our established partnerships with reliable forwarding agents, we have ensured seamless shipment of products to our global clients.

To further enhance the value we provide, Silvera Food offers a **comprehensive suite of services** tailored to our customers' needs:

**Private Labeling:** We facilitate the packaging of products under our customers' exclusive brand names.

**Label Design:** For new importers or those without existing designs, we transform logos into visually appealing labels.

**New Product Development:** From initial concepts or recipes, we develop and produce samples for customer approval before commencing mass production.

**Pre-Shipment Product Inspection:** While based on random sampling, our inspections provide customers with a valuable overview of the finished product quality and appearance.

**Mixed Container Solutions:** We offer the flexibility to consolidate various product categories into a single container, ideal for market testing and efficient stock management.

**Comprehensive After-Sales Service:** Our commitment extends beyond the initial transaction; we stand by our customers as a long-term partner.

## 02- WHY US

Mixed container solutions

# Mixed Containers *made easy!*

### **Optimized Inventory**

You can maintain lower stock volumes by strategically assembling mixed containers. This minimizes excess inventory and reduces holding costs.

### **Market Responsiveness**

Mixed containers allow you to respond swiftly to changing market demands. You can adjust quantities based on customer preferences without overstocking.

### **Testing New Markets**

For market exploration, mixed containers allow you to test the waters with a variety of products. It is a strategic approach to gauge demand and assess market viability.

## 02- WHY US

Mixed container solutions

### Proven Experience

Since our first shipment to Australia in 2020, we have consistently handled diverse mixed containers with precision. These shipments now constitute a significant portion of our exports, reflecting their growing value. From Australia to Hong Kong, Malaysia to Chile, we continue to expand our mixed container solutions, meeting the needs of businesses worldwide.

### Extensive Product Ranges

Our commitment to meeting our customers' needs has driven us to continuously enrich our product categories. From frozen seafood to a wide array of dried and canned fish and other essential foodstuff products, we have expanded our offerings to cater to diverse tastes and preferences and to benefit our customers.

### Tailored Solutions

When it comes to tailored solutions, we are here to help. If you have specific products you want to combine in a container, we will work with you to make it happen. Whether it is blending different items or advising on the best approach, our goal is to turn your ideas into reality.
