## PRIDE OF MEKONG DELTA PARTNER IN GROWTH

In the heart of Vietnam’s Mekong Delta, where nine rivers weave through fertile plains, rice is more than a crop — it’s a legacy of taste and dedication.

Yet for all its richness, Vietnamese rice long lacked one thing: consistent reliability on the global stage. **Lotus Rice was founded to change that.**

By uniting the skill of Mekong farmers with **European-standard production**, we built a fully integrated rice ecosystem — managing every step from cultivation to global delivery. This ensures the **quality, traceability, and reliability** that our partners demand.

For B2B partners, Lotus Rice is more than a Vietnamese premium rice supplier — it’s your growth partner, turning the pride of the Mekong into measurable business value.

**Lotus Rice — Where Vietnamese heritage meets world-class reliability.**
